**Citadel** Top 40 WIOG/Saginaw PD **Mark Anderson** has officially been tapped as PD of **Clear Channel** Top 40 WKST/Pittsburgh, replacing **Jason Kidd** who joined CC sister Smooth Jazz WSMJ/Baltimore as PD. Back at WIOG, former MD and most recently swing at WDRQ/ Detroit, **Brent Carey**, is welcomed as WIOG's new PD.

The **Meat Loaf** saga continues with his classic "**Couldn't Have Said It Better**" added at WKRQ/Cincinnati and WXLO/Worcester. The CD is selling, and the song <u>works</u>. Just ask WPLJ, WQAL, KFME, WBMX, KKRL, KSTZ, KQRS, KARZ and more. **Sanctuary** 

Clear Channel's new oldies outlet, 1690 WRLL/Chicago ("Real Oldies 1690") has launched with a legendary airstaff. PD Tommy Edwards and Larry Lujack host the morning show, followed by Scotty Brink, Ron Britain, Ron Smith, and Len O'Kelly as weekday air talents. Weekends will feature Sid Mark's syndicated "Sounds of Sinatra" as well as Jay Gordon's "Elvis Only" program. The station has also added WVON mainstay Herb Kent to its lineup for a Saturday night program.

Warren Zevon's "Disorder In The House" rocks with the best, as triple A leader WMMM/Madison confirms, and impacting Hot AC now is a different Zevon track - "Keep Me In Your Heart" – which features a touching lyric, providing an essential change of pace. Check out either track, and treat your audience to the wit and charm of the late singer-songwriter. Artemis

Superstar **Tim McGraw** is officially crossing to AC, with a cover of **Elton John's "Tiny Dancer."** The song gains Most Added honors at AC, with KJOY, WOBM, KLSY, KKLI, KVIL, WLTE, KMGA, KKDJ, KKMJ, WJYE, KOSI, WSPA and more adding it this week. **Curb** 

**Cumulus** of Green Bay has split the simulcast of WWWX/WXWX. Appleton's active rocker WWWX ("The Fox") had been simulcast into Green Bay on 107.5 WXWX, but as of this week the 107.5 signal has become WDUZ-FM "Sportsradio 107.5-The Fan", a locally originated sports-talk station. WDUZ-AM will introduce a new format and new call letters on Monday, while "The Fox" is now only heard in some portions of the Green Bay area on its original signal. Sister classic rocker 106.7 WJTW ("The Eagle") has evolved to a mainstream rock format, and has added more '90s material and current songs to its playlist to become "The Rock of Green Bay."

**Fountains of Wayne** have become one of the biggest "surprise hits" of the year. The infectious "**Stacy's Mom**" is winning fans based on the merits of the music. New this week: KXXM, WZNY, WXLK, WEZB, WSNX, WHOT, KBFM, WZKF, WVKS and more. **S-Curve** 

Chicago's syndicated WKQX ("Q-101") morning host **Mancow** and **Fred Durst** of **Limp Bizkit** have exchanged "trash talk" about each other for several years. Now, their dispute has taken a turn toward the courtroom. At the "Summer Sanitarium" tour in Chicago a few weeks ago, Limp Bizkit was greeted by boos from the crowd of Mancow fans. They stormed off stage only 30 minutes into their set, after Durst spouted an anti-Mancow tirade. Chicago lawyer **Michael Young** encouraged concertgoers to file a class action suit against the band, and 172 concertgoers did so. The suit seeks \$25 each for the 40,000 people at the show. There's no mention of Mancow, Q-101, or **Emmis** in the filing.

George Armstrong died in Omaha this week at the age of 76. His name may be vaguely familiar to industry veterans, but probably made most draw a blank. Betsie Freeman, writer for the Omaha World-Herald, enlightens us: "When George W. Armstrong worked at Omaha's KOWH-AM in the early 1950s, each announcer had to play all the top 10 hits during his daily show. In the era of network shows and soap operas, owner Todd Storz thought it would set the station apart." He was right. By 1951, KOWH was the top-rated independent station in the nation, and Storz had launched a radio industry revolution. When **Storz Broadcasting** bought WTIX-AM in 1953, the company sent Armstrong to New Orleans as the station's general manager. A competitor played the top 20 hits in between network programming. With Storz, Armstrong figured that if 20 hits were good, then 40 continuous hits were better. He was right. Ratings at WTIX "went right through the roof - a rocket ride," said Richard Fatherley, a Kansas City broadcasting veteran who has researched Storz Broadcasting's history. So the Top 40 format was born. And Armstrong, a Chicago native who moved to Omaha as a child, was one of its fathers. According to Fatherly, credit for creating the format goes to Todd Storz, but Armstrong "pulled it all together and put it on the air." Fatherley continues, "The format really took off when Armstrong installed it on another Storz station, WHB-AM in Kansas City." And now you know, the rest of the story.

**MercyMe** continues to sell and research, surprising and touching listeners everywhere. "I Can Only Imagine" is still charting as it has since last winter at Top 40, AC, and Hot AC. Don't doubt this proven hit. Curb/INO Records

Kory & The Fireflies just wrapped up more concerts in the Midwest region, and a recent tour with the Goo Goo Dolls. "For What It's Worth" is as relevant as ever, and their new rendition sounds fresh and today. Stockinrock

Minnesota-based **Musicland Group Inc.** has announced it is set to shutter another 150 stores by the end of this year. The music and movies retail chain currently operates 1,100 stores under the names; **Media Play, Sam Goody** and **Suncoast Motion Picture Company**. The company also plans to lay off 900 employees by years end.

Minnesota Senator **Norm Coleman** has vowed to push for legislation to reduce penalties for persons who download copyrighted music from the internet. Coleman told reporters that he believes \$150,000 per song is not reasonable, and promised to reign in the recording industry's subpoena power.

**Plumb** is getting new looks from Top 40 each week, with stations like KZMG, WPPY, WKHQ, KNEV, KLAK, KHMX, KJYO and more coming on board. If you think T40 needs more pop...then you just haven't auditioned enough new music! Try Plumb! **Curb** 

**Arbitron** is dropping Springfield, IL from its measurements. The capital city is rated market #206, with two surveys annually. However, the market has been embargoed by Arbitron, and it has now been announced that no further surveys will be conducted, effective with the Fall 2003 survey. Four main companies hold commercial stations in Springfield: **Mid-West Family**, **Clear Channel**, **Saga**, and **NextMedia**.

Tale of 2 Headlines. We couldn't help but be struck by two outwardly ironic headlines this week. First, in *BILLBOARD MONITOR*, a page 4 article appeared entitled "Programmers Say Top 40 Needs More Pure Pop" with **J.J.Rice**, PD of WBLI/Long Island complaining, "We definitely need more pop!" Then, 3 days later a front-page headline appeared in newspapers around the country (including the *Boston Globe* and *Minneapolis Star-Tribune*): "A First: Black Artists Monopolize Top 10" touting the fact that For the first time in the 50-year history of the *BILLBOARD* charts, all top 10 songs in the country are by black artists. The article can be summed by **Nelson George**, author of *Hip-Hop America*: "...hip-hop has become the new mainstream." Top 40's need more pop? Hip-hop is the new mainstream?? Houston...we have a problem...!

**Laura Turner** is a new artist who makes a strong showing at NAC/Smooth Jazz and mainstream AC, too, with "**Soul Deep**". WJKK, KOSI, KXLY, WSUY, WRMM, KISC, KJOY and more are supporting this **Enya**-styled song that will make your station stand out in a most positive way. **Curb** 

Changes. Twin Cities non-comm KFAI music show host Joel Johnson has died at age 55; he suffered an apparent brain hemorrhage...Former Salem/Twin Cities PD Glen Leweranz has joined Starboard Broadcasting's "Relevant Radio" network at fulltime Production Assistant; he will also continue as a part-time host with Metro Traffic...Bob Marshall has relinquished his duties as news host on Salem's WWTC/Twin Cities, to focus on his TWO other jobs, with Starboard Broadcasting and Clear Channel rocker KXLP/Mankato...Denny Carpenter's low power TV station WCMP-LP/St. Cloud (Channel 13) has relaunched with the slogan "St. Cloud Information TV" and new graphics and presentation this week; Carpenter also operates 1150 KASM/Albany, 105.5 KDDG/Albany-St. Cloud, and 106.1 KLCI/Elk River-Princeton ("Bob 106")

A St. Louis cable company and ISP **Charter Communications** is fighting the RIAA with a lawsuit attempting to bar the labels from getting the names of Charter subscribers who swap music files on the Internet. Charter filed a motion earlier this week to quash the RIAA's subpoenas seeking the names of 150 Charter customers in U.S. District Court.

## Warren Zevon "Keep Me In Your Heart" Impacting Hot AC NOW!

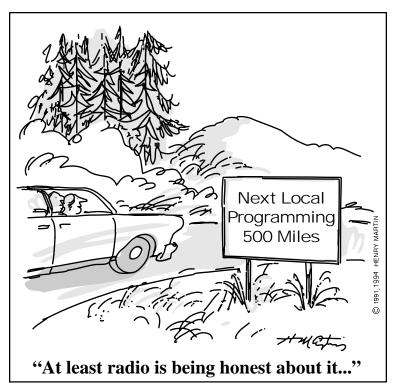

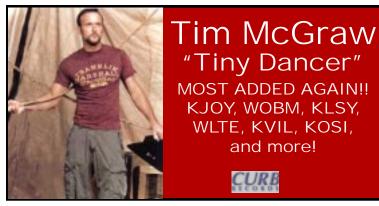

While many in terrestrial radio question the future of satellite radio (a session at the upcoming *RADIO IWK* conference in NYC is called "Satellite Radio – Will It Fly?"), here's something to ponder: Within the next few days, XM will sign its one-millionth subscriber. While XM has one-hundred channels and not just one, if you equate its million paying customers to terrestrial radio's cume - satellite radio would rank inside the top 30 stations in the nation, outperforming stalwarts like WGCI, WTMX, KBIG, KLOS. We're thinking....oh yeah, it'll fly.

**Your-right Dept.** Noticed in an *R&R* want ad for a creative services director this week: "Needed-a great writer...you'll do work your proud of". It's obvious that station DOES need a good writer. And we bet that once that writer is hired they'll be proud of they're station, two!

Fargo market rimshot signal 103.9 KVMI/Arthur-Fargo has applied for another signal upgrade. A few months ago, the station relocated from 96.7 FM to 103.9, where it operates an Oldies format as "Kool 103.9." The proposed upgrade is a move to class C1, using a tower 88km northwest of Fargo. It would also mean that a vacant allotment for a Class C station in Hazelton (near Bismarck) would have to move from 103.9 to 103.3. When KVMI moved from 96.7 to 103.9, it upgraded output power from 5kW to 25kW, but its primary contour is largely outside the Fargo market itself.

Midwest broadcast news follower **Jon Ellis** reports that **Mount Rushmore Broadcasting** is in a continuing dispute with the FCC over the operation of 105.1 KAWK/Custer, SD. In April 2001, an **FCC** inspector found the station was using an unlicensed studio-to-transmitter link (STL). The station received a special temporary authority (STA) for operation of the STL, which expired on September 15, 2002, and was not renewed. Also, an application for a full-term STL was returned, and no new application was filed. Now, the FCC has given KAWK until November 2 to report how it is complying with regulations without a licensed STL. (KAWK was off the air at last report.) The latest order was issued jointly with an order denying KAWK's request that a \$10,000 fine over the unlicensed STL be reduced or dismissed.
