The Conclave announced today the agenda for the 11th annual **Conclave College** – which this year, concludes the 2007 Learning Conference's educational agenda! Yes, in addition to the star-studded content of Conclave College, the always-innovative Conclave Learning Conference presents the traditional Conclave College in a non-traditional way: On a Saturday! With everyone packing so much work into each weekday, it makes sense to offer this year's unique College classes on a weekend afternoon when more industry professionals can take advantage of the intensified teaching that is the trademark of this Learning Conference inclusion. The line-up for the 2007 Conclave College: **A LITTLE HOME GROWN/HOW TO FIND, DEVELOP AND KEEP HOME GROWN TALENT.** The number one issue facing the radio industry today is finding, developing and keeping talent. Consolidation, new media competition, lack of coaching expertise and over reliance on research have resulted in a very shallow talent pool in all market sizes. You'll discover the best ways to: Find talent, Coach talent, Provide a creative environment for growth. This session will benefit programmers, talent and managers. Faculty: **Randy Lane/The Randy Lane Company**

CAN'T WE JUST ALL GET ALONG? The battles between sales and programming have been historic for generations of radio. The demands and competition within modern media means we can no longer afford the luxury of having departmental division. But that's easier said than done. How can a station successfully integrate audience-growing programming with record-setting sales? With a programmer who has lots of sales ideas and a sales guy who (like ALL sales guys!) has some programming ones, too! You'll find out how after this hour! Faculty: **Lindsay Wood Davis, Holland Cooke**

THE FINDING-A-JOB, JOB. Our business like any is subject to change. The job you've held for the last 10 years or even the last 10 minutes could be non-existent tomorrow. Whether you are currently looking, or want to be prepared when it does happen (Yes, national statistics indicate it's not "if", it's "when" it will happen.) don't miss this session. Whether your next job is in

radio or the "real world" we'll explore what it takes to make the time between gigs shorter in both. Faculty; **Kevin Scollin**, Placement Director at Scripps Howard, **Peter Vogt**, published Career Planner, Moderator: **Phil Wilson**

THE UNDER-30 SUPERSESSION. Edison Media Research recently mounted a search for young leaders in the radio industry. The result of their findings was a list of thirty professionals under thirty years old. This year at The Conclave Learning Conference, one of the "30-under-30," McVay Media's **Daniel Anstandig**, hosts a fast paced, high-energy session, with a look at the future of radio through the eyes of radio's future leaders. Daniel's faculty: **Bo Matthews** PD WMMS/Cleveland, **Brad Savage** PD WCNR/Charlottesville, **The Drew Murrell & Nick Thomas Morning Show** KTUX/Shreveport, **Dustin Matthews** PD WFXH/Savannah, **J Kruz** PD X107.1/Grand Cayman, **Matt DuBiel** PD Nine-FM/Chicago, **Matt Johnson** PDWXXB, **Michael Bryan** PD WNVZ/Norfolk, **Scott Herrold** PD KCXR/Tulsa, **Tommy Chuck** PD WFLZ/Tampa, & **Jason Muth** VP/Operations Connecticut School of Broadcasting.

Conclave College 2007: The perfect ending to a perfect Learning Conference! (A complete agenda for next week's Learning Conference is found elsewhere in this issue of the TATTLE R!)

The penultimate study on **"Marketing That Works"** and **"The Impact of Present Day Ratings & the PPM,"** will be presented by **Critical Mass Media** at the **McVay Summit** during this year's **Conclave Learning Conference.** The 30,000-person, nationwide study by Critical Mass will demonstrate who is participating in research in 2007 and techniques to find them. Results so far indicate that building a panel for the PPM will be challenging- 75% of phone calls aren't answered, and of the 25% who answer the phone, 80% won't answer the survey. The McVay Media Summit will take place from 8:30-Noon on Thursday, June 28 at the **Marriott City Center** in Minneapolis.

The Duke Returns to Radio! While the rest of the world was watching the last "Sopranos" episode and worrying about what would happen to the mobster version of "The Honeymooners," **Dave "The Duke" Sholin** was having a vision. When he heard Tony Soprano play **Journey's "Don't Stop Believin'"** on the diner's jukebox, Sholin realized he could play that song again on the air, if he took the job he'd been offered as morning host at the new KFRC-FM (106.9) Tony Soprano's end could be a new beginning. "Sometimes you just know it's right," said The Duke, whose career started in the early 1970s at San Jose's KLIV-AM (1590), when the station played Top 40 music. "If you had to come up with a dream scenario, this was it." Sholin starts July 2 in the station's 5:30-10 a.m. time slot. He'll be working feverishly until that time in his post of **VPI/Astralwerks Records.** Duke is the 2005 recipient of the Conclave's **Rockwell Award**, and sits on the organizations Advisory Board (Admission: most of this story was lifted from the *San Jose Mercury*; thanks, Annette Lai !)

Clear Channel Top 40 KDWB/Minneapolis morning host **Dave Ryan** spent \$19,919.08 for the microphone used by **Bob Barker** on "The Price Is Right." **Dave Ryan** was the lucky bidder in an ebay auction last Friday. **Ryan** agrees that spending nearly \$20,000 on a microphone is a bit extravagant, but he says it was worth it because he's a microphone collector and **Barker** fan. Ask Dave about it when you see him on the faculty of the Top 40 Symposium, "Tearing the Roof off of KDWB!" next Friday afternoon at the Learning Conference. In fact, you might even get a chance to see it in action!!

The successful conclusion of initial **HD Radio** conditional-access field-testing of traffic data services at **Emmis** Alternative WKQZ/Chicago was announced this week! Sponsored by the trio of **Broadcast Electronics**, **Emmis**, **NDS**, and **Ibiquity Digital Corp**, the pilot testing occurred May 23-24 and was the first conditional access test for broadcasting real-time traffic information over the HD Radio system to vehicle navigational systems. The first round of testing inquired into the ability of broadcasters to allocate bandwidth and protect content for mobile delivery of traffic information, and also included authorization and de-authorization of the receiver for the data service, testing of end-to-end system functionality, successful reception/decryption of determine latency, and data stability in the encrypted channel. The testing, which was centered around the Chicago area, showed no dropped data packets or loss of service.

Northwoods League, a summer wood-bat baseball outfit, has fined **Waterloo Bucks** broadcaster **Tim Harwood** \$500 for calling into question the team's "credibility." Harwood made the comment on **Fife Communications** Spanish KDNZ/Cedar Falls, after the home team's manager, pitching coach, and two players were thrown out of Saturday night's loss to the **Alexandria Beetles**. He noted that league president **Dick Radatz, Jr.** called him up last Monday to discuss the comments, and the league will send him a letter demanding payment by noon on Monday. If further actions occur from Harwood, he'll likely be banned from broadcasting the league's games. Mr. Harwood is employed by the team, not the radio station. During last Wednesday's game, a group of four co-workers from Harwood's day job at **The Technology Hut** took a collection from fans to pay the fine.

JJ Fabini has been appointed to **Summit City Radio Group** as their new General Operations Manager. **Rob Livergood** has been named GSM, and **Don Igney** is slated to become the new Business Manager for Top 40/Rhythmic WNHE, WXKE, and Adult Standards WGL-AM/FM/Ft. Wayne.

Today, the **Roe Conn Show**, afternoons on WLS/Chicago gets out of the rain for the first real party of the summer; *Summertime Booze*. The live broadcast at the **House of Blues** is an invite-only, sold-out affair, but listeners could still be part of the fun by tuning in or jumping on-line at wlsam.com, this afternoon. Hundreds of invitations have been downloaded from the WLS web site for the broadcast that features live music from the **Play Doctors**, featuring Chicago-favorite Kimi Hayes, special guest **Rick Springfield** and a salute to summer in Chicago with the rollout of the infamous **Canarble Wagon** at 5pm.

All in the family...for 50 years! Congrats to **Jerry Hennen**, who celebrates 50 years in radio this month! Hennen is 67 and active in radio and is married 45 years to wife Jeanette. They have 4 children all in radio: **Scott**, WDAY GM and Hot Talk Host in Fargo, **Jill St John**, professional voice for specialty projects, **Nancy**, Morning co-host at KZLT-**Leighton Broadcasting**/Grand Forks and **Chris**, staff announcer and show producer in Fargo.

Jay Philpott returns to the air at Bonneville's WARH/St. Louis (one of those stations that play "whatever they want." In addition to his role as a radio/public speaking instructor at **Broadcast Center**/St. Louis, Philpott's duties at the Arch will include weekends, vacation fill-in, production, lawn-mowing, painting – yes, doing whatever they want!

A new bill to allow the **FCC** to eliminate third-adjacent-channel interference protection for full-power stations is coming down the pike, thanks to **Reps. Mike Doyle** (D-PA) and **Lee Terry** (R-NE). The purpose of the bill is to make room for more LPFM station. It was officially launched this week, with a twin bill circulating in the Senate, introduced by **Sens. John McCain** (R-AZ) and **Maria Cantwell** (D-WA), who attempted the same bill last year but failed to put it through.

Quinn and Rose, the morning show out of **Clear Channel** Talk WPGH/Pittsburgh, is adding another affiliate to their burgeoning syndication, with **Salem** Talk KYCR-AM/Minneapolis-St. Paul adding them to their lineup. **Jim Quinn** and **Rose Tennent** are now on 12 stations nationwide.

Media-Com Talk WNIR/Akron is back to being the home of **Kent State University's** football and men's basketball games in a newly-inked 5-year deal. The station will also air a one-hour pre-game show preceding football games, as well as a 30-minute post-game show. Basketball games will have a 30-minute pre-and post-game show. Previously, the **Golden Flashes** aired on **Clear Channel** Talk WHLO-AM/Akron and Salem Talk WHK-AM/Cleveland and Religion WHKZ-AM/Warren, OH.
