TalenTrak 2007 To "Len" An Ear; Kasper to Keynote! Chicago Cubs broadcaster **Len Kasper** has been tapped to keynote the 2007 edition of the **Conclave's TalenTrak** on Saturday, November 10th at **Columbia College/Chicago!** Kasper, a Milwaukee native, is finishing his third season with the Cubs after doing **Florida Marlins** play-by-play for three years for **Fox Sports Net**. Prior to joining the Marlins, he did play-by-play for select **Milwaukee Brewers** games from 1999-2001.

Kasper's broadcast career also included a stint as the morning sports anchor at WTMJ/Milwaukee. He hosted pregame and halftime shows for the **Green Bay Packers** radio network and co-hosted a hot stove league show on the Brewers radio network. He spent nearly eight years working for WTMJ. Kasper graduated summa cum laude from **Marquette University** in 1993 with a degree in public relations! Len will address **TalenTrak**ers on the subject of identifying and seizing industry opportunities, while providing tips on honing and improving one's individual skills in order to take hold of and maximize those opportunities! He might even drop in a few fun, behind-the-scenes stories of the Cubs magical 2007 season (at this writing, the Cubbies are in first place the NL Central!) **TalenTrak** is the only meeting in the industry that devotes a full day toward one purpose: Making better air talent. In an intensive and fun daylong seminar, you'll hear from seasoned radio professionals about important aspects of career advancement, employment strategies and how to deal with everything from irate listeners to office politics. There's even time set aside for you to meet one-on-one with radio professionals who will listen to your air

checks and offer constructive advice on how to improve your on-air work. **TalenTrak** will be held November 10, 2007 at Columbia College in the heart of downtown Chicago. Tuition for the day is just \$49 (\$39 student/educator/free agent), and it includes lunch! To register, visit www.theconclave.com. Look for the **TalenTrak** story, and click on the link featured to download a registration pdf document. The official **TalenTrak** hotel is the **Travelodge Hotel**, just one-half block from Columbia College. To secure a specially priced **TalenTrak** room at the Travelodge, contact **TalenTrak** room coordinator **Darren Andrews** at 312-376-1481 or at his email address: travelodgechicago@yahoo.com.

Former **Conclave** Keynote and legendary radio programmer **Steve Rivers** comes back to the programming game, after being named PD of **CBS Radio** Top 40/Mainstream KBKS/Seattle, starting immediately. Rivers was most recently served as EVP and Pres./Programming for **Pyramid Radio Inc.**, but has also been seen as SVP/Programming for CBS Radio, radio editor and founding partner at **Musicbiz**, SVP/founding partner of Radio Central, Chief Programming Officer at AM/FM, **Chancellor Media**, **Evergreen Media**, and **Pyramid Broadcasting**. Rivers has had much success at stations such as WXKS/Boston, KIIS/Los Angeles, and KMEL/San Francisco. CBS/Seattle SVP/Market Manager **Dave McDonald** noted, "Steve is a tremendous addition to CBS Radio and to 106.1 KISS FM. It is our great fortune that he has missed radio programming and living in Seattle, and has chosen to return to those two great loves by joining us. He's been a terrific leader in the radio industry and brings a wealth of experience and knowledge to the position." **Marcus D.** will also be segueing from KBKS PD to APD/afternoon drive at the station.

Another politician has joined the growing ranks of those opposed to the **XM/Sirius** merger. Wisconsin Attorney General **J.B. Van Hollen** sent a letter last Tuesday to Assistant Attorney General for Antitrust **Thomas O. Barnett**, calling the merger a monopoly. He wrote, "The proposed merger would eliminate competition in the satellite radio industry and the combined Sirius companies would be free to raise prices, stifle innovation, and reduce program diversity." He then asked the Justice Department to "block the merger, as it presents a real threat to competition and is a clear violation of the Clayton Act's prohibition on merger-to-monopoly."

"Too often consolidation has meant that media outlets are forced to respond to Wall Street rather than their audiences, resulting in "homogenized and dumbed-down news that doesn't reflect who we are," So said FCC commissioner **Michael Copps** to a packed audience yesterday afternoon (Sept. 20) in Chicago. The gathering's purpose was to tell the FCC's five commissioners their feelings about how they are served by the media as well as their views on media ownership. Copps continued to insist, as he has consistently done at these forums, that media consolidation is an evil from which all bad media comes, and urged those at the meeting to "get involved big-time, like your future depends on it, because it does." Chairman **Kevin Martin** explained that the goals of the FCC's review of media-ownership rules include "taking into consideration the competitiveness of the market as well as the preservation of diversity and localism." He said the commission must play a role in "expanding new opportunities for media ownership and media programming." Illinois state representative **Connie Howard** said she is concerned about the "lack of diversity of media ownership" since the 1996 Telecom Act was signed, and she lashed out against big media companies for their lack of localism claiming "the last thing they want is market-wide competition." State assistant attorney general **Susan Satter** told the commissioners that "over the past 10 years we've seen a striking consolidation of media," resulting in higher advertising rates, "(cutting) small business off from their communities." She concluded by calling on the FCC to promote diversity and localism and access to the media. *Comment: Yesterday while driving on our Minneapolis streets in the middle of a torrential rainstorm attempting to dodge marble-sized hail, I heard sirens in the distance while listening to a syndicated talk show on a group-owned station ranting about some sort of political wrongdoing. I punched out, and heard (on two other stations) word about a tornado warning just issued for the community. I returned to the syndicated show to hear...more ranting. Not one word about the treacherous weather occurring in the station's city of license, urging listeners to take cover! Bottom line? I'm not sure that the consolidation's symptomatic loss of localism is, to use Commissioner Copps' word, evil. But for the listeners of one radio station in Minneapolis yesterday, it could have proven to be dangerous. - TK*

Jeff Shrinksy, GM of **SBS Spanish WLEY/Chicago** is being replaced by SBS EVP/COO **Marko Radlovic**, as the station tries to recover from tow separate contesting problems. PD **Marylú Ramos** has exited the station as well. The station

experienced its first controversy in January, when a contestant wasn't awarded a Corvette she'd won because of questions about her legal status. The car was once owned by Mexican artist **Juan Rivera**, and she won it on July 4th, 2005. The station, however, said it couldn't give her the prize because she's not a legal U.S. resident. Radlovic now has her in the driver's seat. The other contestant problem came from the winner of the "Idolo de La Ley" talent contest. Radlovic commented, "Our radio waves will continue to be used for the benefit of the entire Hispanic community, including all Hispanic immigrants regardless of their status."

Former sales rep for **Cherry Creek Radio** in Missoula, MT **Kevin Plasmier**, has changed his plea to 'guilty' on charges he stole thousands of dollars worth of merchandise from a client. According to court documents, Plasmier used his position at Cherry Creek to steal "\$10,000 worth of camping, fishing, and sporting goods from **Bob Ward & Sons, Diamondback Golf**, and the **University of Montana Golf Course** and then sold them on the internet. He was fired in May by Cherry Creek after the company learned of the allegations. His sentencing is scheduled for an October 30th hearing.

Central Iowans and 93.3 KIOA will pay tribute to **Dic Youngs** and his Hall of Fame radio career this Saturday. In honor of Youngs' retirement, KIOA is hosting the "**Thanks for Turning Me On**" Dance at the Val Air Ballroom this Saturday. "He's truly an Iowa Broadcast icon," says **Tim Fox**, KIOA Program Director. "In a world of constant change Youngs has been consistent in listeners' lives during his four decades on KIOA." Youngs' last show on KIOA will be on Saturday, September 29, 2007 from 5pm to 9pm. Past and current KIOA personalities, local dignitaries and celebrities will make appearances to honor the Ole' Youngster. Dic Youngs is a (nearly) life-long resident of Des Moines. He entered an amateur DJ contest at the age of 16, and became an instant star on 1460 KSO/Des Moines. Youngs was honored in 1997 by being inducted into the Iowa Rock N' Roll Hall of Fame. Youngs has hosted afternoons on KIOA and the Original Saturday Night Oldies Show. Central Iowans won't be without the Ole' Youngster as he will move to KIOA's sister station, AM 1350 KRNT, in late October 2007.

A few formats are being shuffled around at **Chapin Enterprises** at their Lincoln, NE properties. Longtime Top 40 KFRX will move their format to 106.3 FM. Also, AC KLMY will move to 102.7 FM. Chapin anticipates more changes in the Lincoln radio market, and they should take effect in early October, 2007. KRKR will change their calls and format. The Classic Rock format currently heard on 95 Rock will move to KTGL.

On Tuesday, CEO of CBS Corporation **Les Moonves** told the Merrill Lynch Media and Entertainment Conference in New York that CBS has no plans to sell its radio and outdoor units, even though he indicated that CBS might "trim radio a little more" by selling stations. He added that the company "likes the cash" that radio delivers and then said, "We like the outdoor business a great deal. I don't foresee us in the near term or the long term spinning it out." Moonves also told conference attendees that the company would consider other acquisitions at the right price, saying that CBS is "very cautious, very conservative about what we do" but that "we have a lot of dry powder." He also said that the company has no plans to join **NBC** in fighting **Apple** over TV show download prices through **iTunes**, saying it was "as much as a promotional vehicle for our shows as a financial vehicle." Moonves suggested that the company may increase the amount and buy back more stock as well.

2007 Conclave Learning Conference Begins Construction of New Industry. The building blocks for a dynamic rebuilding of the radio industry were laid during the weekend of June 28-July 1 at the 32nd annual Conclave Learning Conference, as hundreds of industry professionals, teachers and students descended upon the Minneapolis Marriott City Center for RADIO UNDER CONSTRUCTION. Over 40 sessions covering every

major radio format, technology and resource were presented to packed meeting rooms throughout the conference weekend. *THE TATTLER* has been presenting stories about the event originally found on the pages and websites of the Conclave's Publicity Partners. Here's the next installment from *Allaboutcountry.com*. "In PPM World of Programming, KILT moves the meter" - **Gary Marince**, VP of programming services and development for **Arbitron**, during a Conclave session titled "Programming Through The PPM Lens" at the 32nd annual Conclave, told the audience how data from the Houston market showed how programming drive spikes in listening. Marine use a specific example. KILT was doing a George Strait ticket giveaway. Every time the contest was run during the day, listening levels soared. He also gave an overview of PPM hardware, how panels are structured, and their stability. The hardware includes a signal encoder at the radio station. Docking station for the home: The actual meter, PPM panelists participate for two years, There is very strong panel stability, In the current diary system, Houston has 4,120 in tab diaries per survey, about 343 per week. The PPM has 1800 meters on the panel each day. Also, PPM panelists must; keep the meter with them at all times, keep the green light on, and recharge the meter during bed time. While the meter is in the docking station at night, listening habits recorded during the day are downloaded. The PPM also records all radio listening while in the docking station. If Arbitron detects a meter that has been docked for more than normal, they will contact panelists if this continues to happen. *(The Conclave thanks RadioAndRecords.com, radio-info.com, insideradio.com, fmqb.com, radioink.com, and allaboutcountry.com for communicating the magic of a very special June weekend in Minneapolis.)*
