

Clear Channel Talk KTLK/Minneapolis hosts Chris Baker and Langdon Perry said on the air that NBA legend Magic Johnson faked having AIDS forcing the station to apologize. KTLK PD Steve Versnick released a statement saying the station "recognizes the seriousness of the health issues presented by HIV/AIDS — and the great work that Magic Johnson has done across the nation in calling attention to this disease, and the importance of HIV testing and treatment." Versnick added KTLK will now air HIV/AIDS PSA's and will reach out to Magic Johnson for his thoughts on educating the public. Versnick refused to say whether Baker and/or Perry face discipline by the station. Magic Johnson said, "I am outraged that Chris Baker and Langdon Perry would minimize such a serious and deadly issue. Millions are dying from HIV/AIDS, and the fact that they would make jokes about my status is unbelievable. Chris, Langdon and KTLK should use their power in a more positive light by encouraging people to get tested for this disease instead of making up such ridiculous lies." Johnson, part of five NBA championships with the Los Angeles Lakers in the 1980s, retired abruptly in 1991 after revealing that he was HIV-positive. He made two brief comebacks before retiring for good in 1996. He also was on the U.S. basketball team that won Olympic gold in 1992.

Journal Talk WTMJ/Milwaukee host James T. Harris is getting hate mail for speaking at a rally for Republican Presidential candidate John McCain. Harris, who encouraged McCain to step up his attack on Barack Obama's character, said, "You know this is sort of a sampling of the e-mails that I've been receiving: 'Hey Sambo, maybe Master McCain will let you shine his shoes since you did such a good job licking his boots." National media picked up the story, inciting Obama supporters nationwide. "Most of the stuff that I got in the e-mail," said Harris, "was like, 'How can a black man stand up and say that?' Well you know what? I

happen to be an American of African descent, but I am a conservative...I realize that I'm speaking for millions of people. It just so happens that in this racially charged election, the people who look like me happen to be on the other side of the aisle."

On the heels of it's successful launch of it's online Webinar series, the Conclave today announced the second such presentation will be held October 27th at 2:00pm CDT. "Creating Powerful Radio from A to D (Analog to Digital)" will be presented by Daniel Anstandig of McVay Media and Valerie Geller of Geller Media International addressing content that gets and keeps audiences no matter what the delivery system. Participants must

register for the webinar, offered at no charge, at http:// theconclave.com/learning/webinars.php. According to Conclave Executive Director, Tom Kay, "Our first webinar exceeded our expectations for attendance and we're energized that so many still look for ways to learn to make their product and broadcast in general better. With so much talk about content and it's importance we're glad that we can provide a resource that provides real action steps to improve it...wherever it's heard." Said Anstandig, "It's what comes out of the speakers that counts! No matter what the delivery system — It's still content that gets and keeps audiences. Whether you are considering expansion via HD, Internet-Radio, or Online Media, this seminar will give you insight and action-points for expanding your business in the digital world. Take advantage of this one-hour workshop to learn from two of the top consultants working in radio and new media today!" Anstandig and Geller will show examples of leading media outlets around the world and their tactics to acquire new audience in the digital space. Learn about social networks, blogging, streaming, and podcasting—and how radio stations have used them to grow their audience and revenue. You'll also gain new insights on what interactive ad buyers want—and how to develop your new media offerings to fit their needs. In this session if you are a manager, programmer, on air talent, work in news or promotion and sales, here you will learn the secrets of creating powerful and compelling broadcast content, based on Geller's book Creating Powerful Radio - Getting Keeping & Growing Audiences and ways to maximize that content for additional stations. Learn how stations are creatively re-purposing some of the broadcast content for the new media AND creating low cost (or NO cost) original content. Recently recognized by Billboard Magazine as one of the top five innovators in media, Daniel Anstandig advises radio stations and media companies around the world on their digital business and on-air programming strategies including: Clear Channel Radio Interactive, The Wall Street Journal, artists Jewel and Jim Brickman, The White House Commission on Remembrance, Glencoe-McGraw Hill, Jones-TM, and broadcasting groups worldwide. He's a member of the Conclave Board of Directors. Valerie Geller has worked with more than 500 stations in 30 countries to help grow audiences.
