Haley to Keynote Conclave Learning Conference! Radio Advertising Bureau's (RAB) President and Chief Executive Officer, Jeff Haley will deliver a keynote address to the industry at The 34th Conclave Learning Conference. As President and Chief Executive Officer of the RAB, Jeff Haley has steered the association in a business-driven direction with defined objectives to share knowledge, facilitate consensus, and increase revenue for the radio industry. Mr.

Haley has over 25 years experience in the media and advertising industry. Mr. Haley is on the Board of Directors for the Ad Council and a member of the **Arbitron** Radio Advisory Council. The 2009 Conclave Summer Learning Conference will be held July 16-18 at the Sheraton South Hotel in Minneapolis, MN. For registration details and additional agenda information, log onto http:// www.theconclave.com. Comment: The Conclave is fortunate to bring one of the industry's most important and influential leaders to The Learning Conference. Mr. Haley is the latest addition to a growing list of industry leaders who have spoken to our industry through the Conclave, and is a perfect complement to NAB's David Rehr, who participated in last summer's Conference. We should all be very excited about the energy and enthusiasm Mr. Haley has brought to the RAB and we are very much looking forward to the sharing of his insights on our industry as we negotiate the challenging road ahead. Haley's appearance at the Learning Conference is just the first of many announcements the Conclave will be making regarding the make-up of the most important and most relevant seminar in Conclave history. You will not want to be on the outside looking in come July. Start making your plans to attend now. It will represent an investment you will treasure for years to come. - TK

Google automation has given up on radio. "While we've devoted substantial resources to developing these products and learned a lot along the way, we haven't had the impact we hoped for," wrote Google's Susan Wojcicki, VP of product management. "So we have decided to exit the broadcast radio business and focus our efforts in online streaming audio. We will phase out the existing Google Audio Ads and AdSense for Audio products and plan to sell the Google Radio Automation business, the software that automates broadcast radio programming." Advertisers will still be able to use Google Audio Ads until May 31st and broadcasters can still publish inventory to Google until that date.

We look forward to a successful initiative for many years to come."

I am putting that into motion."

NAB Pres./CEO David Rehr - 2008 Conclave Keynoter - has written and sent a letter to President Obama thanking him for recognizing public service by broadcasters. The letter said, "As our nation experiences difficult times, radio and television broadcast stations are helping their local communities by addressing important social issues that affect all Americans.

Broadcasters are at the forefront of the issues that matter most to their local communities. They are donating airtime for important public service announcements (PSAs) that encourage people to take action against hunger, provide free financial guidance to homeowners in danger of losing their homes and inspire volunteerism as we renew America together."

**Iowa Public Radio** is off the air in Eastern Iowa and Des Moines because of transmission line problems at KUNI/Cedar Falls, which has toppled repeater stations in Dubuque, the Quad Cities and Des Moines.
